Signed Contract Amendment - Maple Shore Medical Center

Amendment ID: AMD-E102-2026-01 | Contract: CTR-E102 | Hospital ID: H-E102 | Signed: 2026-09-25 | Effective: 2026-10-01.

Supersession: This amendment overrides the Base Agreement IV-catheter brand-lock only for the product pair below while a documented backorder remains open.

Allowed requested SKU: AV-IV22-BLU-LF. **Permitted alternate SKU:** BR-IV22-BLU-LF.

This is a conditional contractual exception, not clinical authorization. The current substitution guide must show APPROVED, inventory must be available, and a clinician must still approve the proposed substitution.

Not permitted: Other Borealis or Noventa IV-catheter SKUs; all other base restrictions remain in force.

Pricing: Confidential, limited to authorized East-region hospital accounts.
