Approved Substitution Guide - VERSION 2 (CURRENT)

Document ID: SUB-GD-2026-V2 | Effective: 2026-09-01 | Document owner: Crestline Clinical Governance.

Supersedes SUB-GD-2025-V1. Always evaluate the current active guide and any applicable product instructions and hospital contract amendments.

A guide approval is a necessary but not sufficient condition for a substitution. Human clinical review is required before use. Product attributes and examples are fictional.

Requested SKU	Candidate SKU	Status	Required attributes	Clinical note
AV-IV22-BLU-LF	BR-IV22-BLU-LF	APPROVED	22G, blue, 25 mm, latex-free	Same listed attributes; check hospital brand lock and stock.
AV-IV22-BLU-LF	NV-IV22-BLU-LF	APPROVED	22G, blue, 25 mm, latex-free	Check availability and brand restrictions.
AV-IV22-BLU-LF	BR-IV22-BLU-LX	REJECTED	Latex-free REQUIRED	Candidate contains latex. Old V1 approval revoked.
AV-IV22-BLU-LF	BR-IV20-PNK-LF	REJECTED	22G REQUIRED	Candidate has different gauge / length.
AV-IV20-PNK-LF	BR-IV20-PNK-LF	APPROVED	20G, pink, 32 mm, latex-free	Confirm receiving site approval.
AV-SYR10-LF	BR-SYR10-LF	PENDING_REVIEW	Syringe compatibility review	No automatic recommendation; refer to scanned supplement and clinical reviewer.
AV-DRS-10X10	BR-DRS-10X10	APPROVED	10x10 cm sterile dressing	Contract and stock checks still apply.

Policy note: Only rows explicitly marked APPROVED in the latest effective guide may proceed to the separate contract, inventory and human review checks.

Audit note: Retain document ID, version, page, matching SKU pair, and checked attributes with each candidate decision.
